

Finite Mathematics

Homework 8

Due via Gradescope Friday, April 24, 2020 at 20:00

Note: The assignments are from the CNX online textbook by Rupinder Sekhon. In each section, some problems have given solutions. You can treat them like the (*) problems on the previous homework sets to test your understanding and to practice.

1. Chapter 14, all unanswered questions from [Problems 1–6](#) of “Independent events”
2. Chapter 16, all unanswered questions from “[Bayes’ formula](#)”
3. Chapter 16, all unanswered questions from [Problems 1–4](#) of “Binomial probability”
4. Chapter 16, all unanswered questions from [Problems 1–6](#) of “Expected value”
